

QUICK GUIDE: WHAT NOT TO PUT IN YOUR RECYCLING BINS

The top cause of contamination is placing incorrect items in recycling bins.
CONTAMINATED RECYCLING MAY NOT BE COLLECTED

PAPER & CARD BIN ONLY

CLEAN AND DRY PAPER ONLY

DO NOT PUT IN RED BIN

X Sacks

X Wet or damp paper or greasy or food-stained cardboard

X Kitchen roll, tissues or paper towels

X Shiny, foil or glittery paper or cards

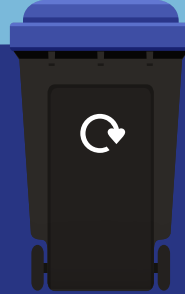

X Food and drink cartons (e.g. milk, juice cartons)

X Plastic film, wrapping or sleeves. Padded envelopes. Paper with plastic on it

TOP TIP

If it's not clean and dry paper or cardboard, IT WON'T BE COLLECTED

MIXED RECYCLING BIN ONLY

EMPTY . CLEAN . LOOSE

DO NOT PUT IN BLUE BIN

X Sacks

X Crisp packets, chocolate wrappers, food pouches and other soft plastics (e.g. coffee bags)

X Packaging with food still inside or unwashed containers

X Aerosols that aren't completely empty or chemical containers

X Pyrex, window glass, mirrors, lightbulbs

X Paper, hard plastics, polystyrene, ceramics, blister packs, coffee cups

TOP TIP

Recycling should be empty, clean and loose.
